

Early College Credit (ECC) Program: A student in grades 9 through 12 attending a public school or a private school in the state of Wisconsin, will be permitted to enroll in a UW System institution, or a private, non-profit institution of higher education. If they are accepted for enrollment in such an institution or college and there is space available in the registered course in order to take one or more nonsectarian courses, the student may earn high school credit, post-secondary credit, or both in accordance with state law (Wis Statute 118.55).

Start College Now Credit (SCNC) Program: District students enrolled in grades 11 and 12 may participate in the Start College Now Credit Program in accordance with state law and established procedures. The Start College Now Credit Program provides eligible students an opportunity to take one or more courses at a Wisconsin Technical College while in high school if they are accepted for enrollment in such institution or college and there is space available in the requested course. The Start College Now Credit Program replaces Youth Options beginning in the 2018-2019 school year pursuant to the program provided in Wis. Stat. § 38.12(14).

Early College Credit (ECC) & Start College Now (SCNC):

From time to time, conflicts will develop with high school and college classes. The following is a guide to assist students and staff in resolving class conflicts that may develop:

1. IGHS required classes come first. All students need to take required courses in the district and will need to attend IG courses 5 out of 5 days. If an ECC/SCNC course conflicts with a required IG course, the student will be encouraged to drop the ECC/SCNC course.
2. If the student has maintained a 3.5 GPA at IGHS and the ECC/SCNC course is considered a chained course, an exception can be made if:
 - a. A student can attend the required IGHS course 4 out of 5 days and agrees to make up missed work/lessons on their own, they may then elect to remain in both courses. This exception is only available if the student has a conflict due to a chained ECC/SCNC course.
 - b. While the District discourages this option, the student may also elect to take the required high school course online. This exception is only available if the student has a conflict due to a chained ECC/SCNC course.
 - c. If there is a conflict with a high school elective course, the student must be able to attend that elective course 4 out of 5 days or drop either the elective course or the ECC/SCNC course.

- d. IG Administration has the discretion to overlook these two provisions.
Example but not limited to: If the ECC/SCNC course is needed for college admission and there are no other alternative courses.
 - e. The dropping of any ECC or SCNC course is the responsibility of the student/parent.
 - f. Transportation and parking (permit included), is the responsibility of the student/parent.
 - g. The dropping or failing of any ECC or SCNC course will result in the student/parent reimbursing the school district any course fee incurred.
3. The District shall pay for no more than the equivalent of 18 postsecondary semester credits (4 ½ high school credits) per student. The District shall not, however, limit the number of postsecondary semester credits a student may take at his/her own expense.
